DRIVE – IN MARKER POSTS

High density compressed fibre composite by Carsonite ®

Available - Red, Yellow, White, Blue and Green
either 42"/1050mm or 60"/1500mm long

Predrilled for DDS technology sign plates

Un-drilled to apply self adhesive custom marker stickers e.g. Water, Gas, Electric
With option of your company logo

Advantages

Rapid installation by 1 man
Very strong and impact resistant – yet light for easy transport and storage
Does not rust, rot or corrode—unaffected by temperature
Colour permeated with UV shield to prevent fading
Long life expectancy 15 – 20 years
Industry tested and approved
Substantial savings against other methods of marking

Marker posts with custom identification stickers

Custom and stock stickers
Easy to apply
Weather proof
Durable UV stable
Company branding or logos

Anchor Barb

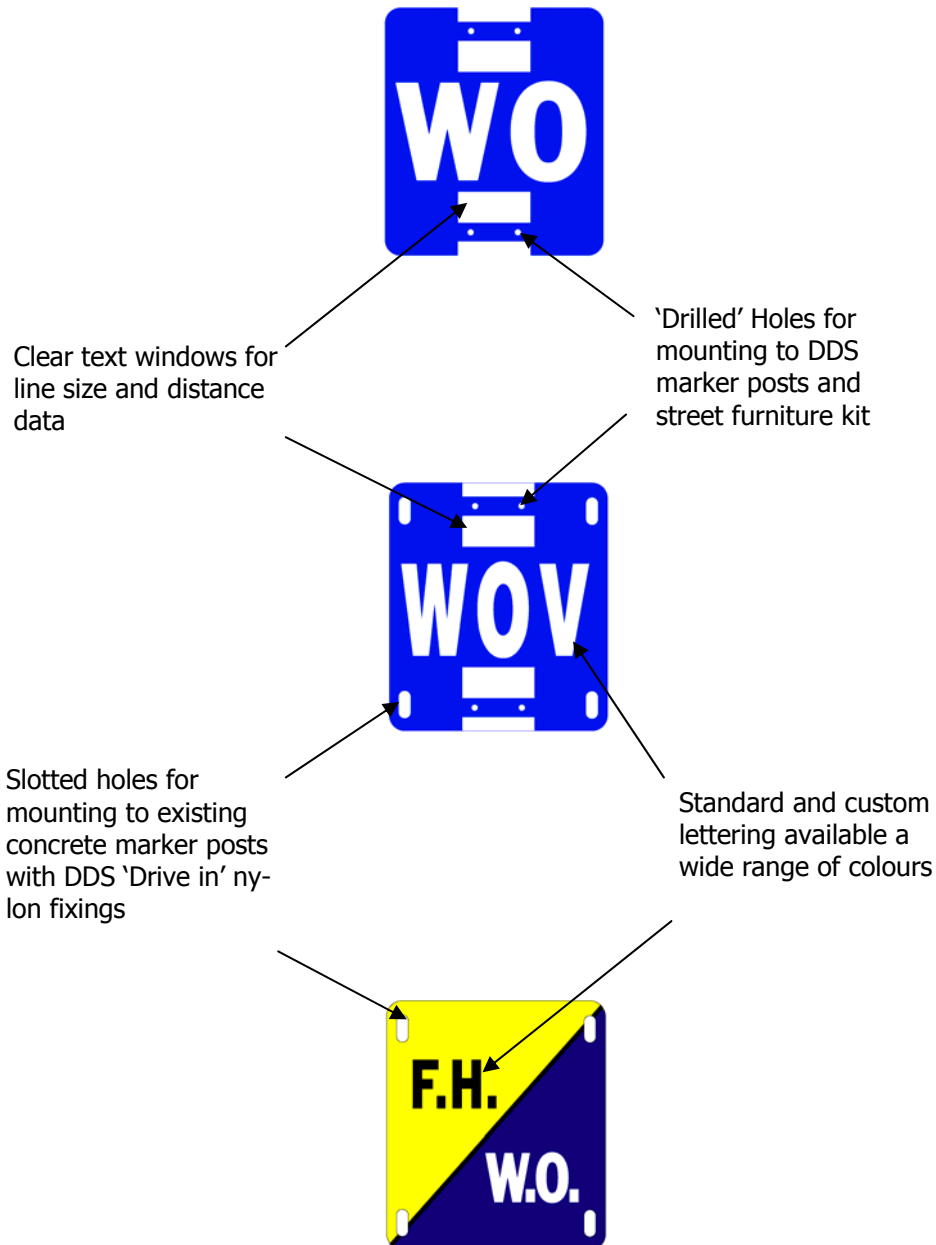

Designed for loose soil conditions to give permanent anchoring, the flexible barb folds flat as the post is driven and opens to prevent removal

Please follow safe working practices when installing marker posts - wear protective clothing and goggles

MARKER PLATES

Made from high 3mm thick high strength 'Lexan' which is reverse printed to protect the image from damage, clear text windows are provided when required to allow for individual information to be reverse applied on site prior to fixing of the plate to the post. Plates can be supplied drilled for fixing to DDS system posts and street furniture or slotted for mounting on existing concrete marker posts, combination drilled and slotted plates are also available.

Custom sizes plates and 1 or 2 mm thick plates are available.

Marker plates are supplied in industry standard 180mm x 205mm (7" x 8") size
With the text window sized to take up to 3 digits

POST AND PLATE FIXINGS

The DDS system includes everything required to fix marker plates to our composite posts , existing concrete posts, lamp posts or street furniture

Marker Post to retainer Barb

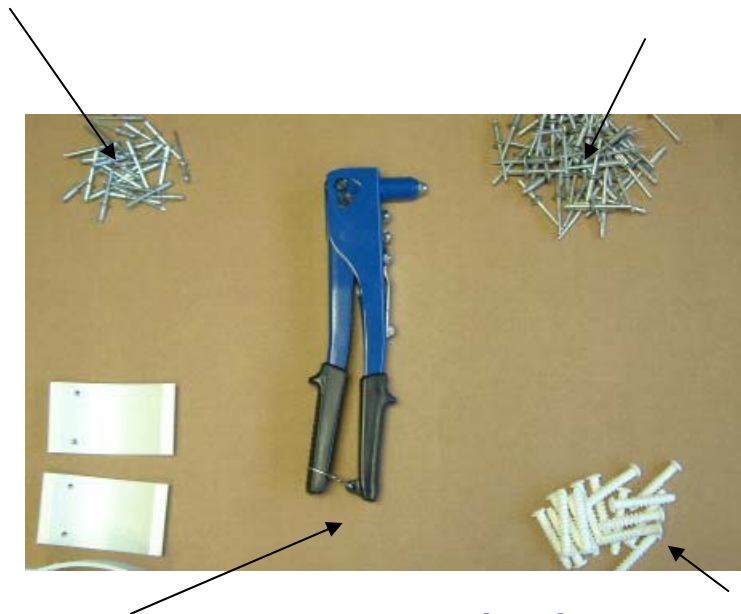

Rivets for fixing the retaining 'Barb' to the marker post.

Sold in units of 100's or 1000's

Sign Plate to Marker Post

Rivets for fixing DDS plates to posts are a special 'soft' fix to protect the post and plate.

Sold in units of 100's or 1000's

Rivet Gun

Rivet gun to suit both types of rivet - light weight and economical

Sold individually

Sign Plate to concrete post

8mm nylon drive fixings for fixing DDS plates to existing concrete posts (order slotted plates)

Sold in packs of 100

Street Furniture Kit

Comprising 2 x Stainless steel mounting brackets, 2x heavy duty ties and 4 x soft fix rivets for fixing to the marker plate.

Sold individually

Street Furniture Kit

Hydrant marker plate fitted to a post with street furniture kit

MARKER POST DRIVER

Lightweight manual post driver

Specially designed for purpose - holds the post and requires two handed operation for safety.

No digging required to install posts

Available for both marker posts and the Gladiator range of 'Curve Flex' marker posts.

Protective clothing must be worn and we would recommend the use of our lumber support or similar

Lumber support

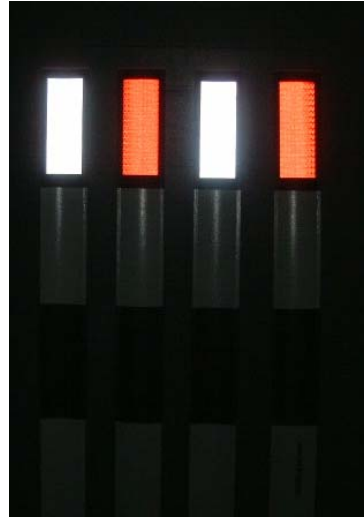

Lightweight lumber support which can help to prevent injury during manual Labour.

Single size with 'Velcro' waist closure
To be worn as tight as is possible around the waist with the reinforced support covering the lower back

Please follow safe working practices when installing marker posts - wear protective clothing and goggles

GLADIATOR MARKER POSTS VERGE MARKING BLACK AND WHITE BANDING

Gladiator posts

Curv-flex® posts are designed for high impact areas having excellent flexibility allowing direct tyre and higher speed vehicle impacts. The concave design protects the applied decals and reflective material from damage during vehicle impacts.

Posts are colour permeated white with black applied banding so will not fade.

Advantages:-

RAPID INSTALLATION

- No digging or backfill required

LONG LIFE EXPECTANCY

- Colour permeated and UV protected to prevent fading
- White posts with black vinyl applied
- Unaffected by variations in temperature

EXTREMELY STRONG AND IMPACT RESISTANT

- Meets all traffic sign regulations

HIGH QUALITY/PERFORMANCE REFLECTIVE DECALS

- Diamond grade class 1 reflective decals (RED AND/OR WHITE)

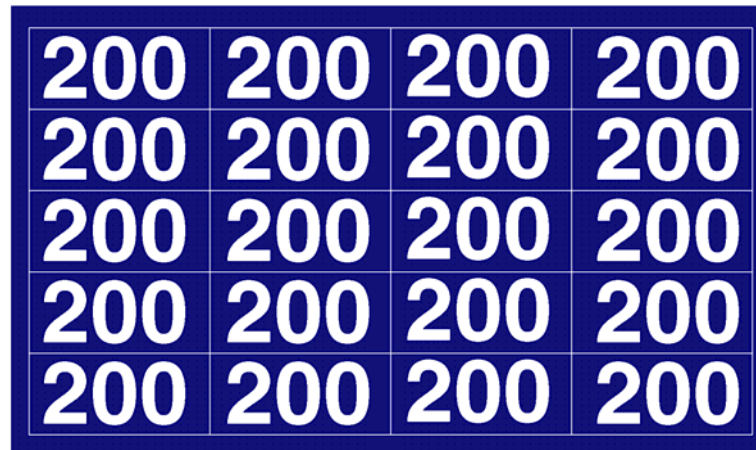

Marker Plates

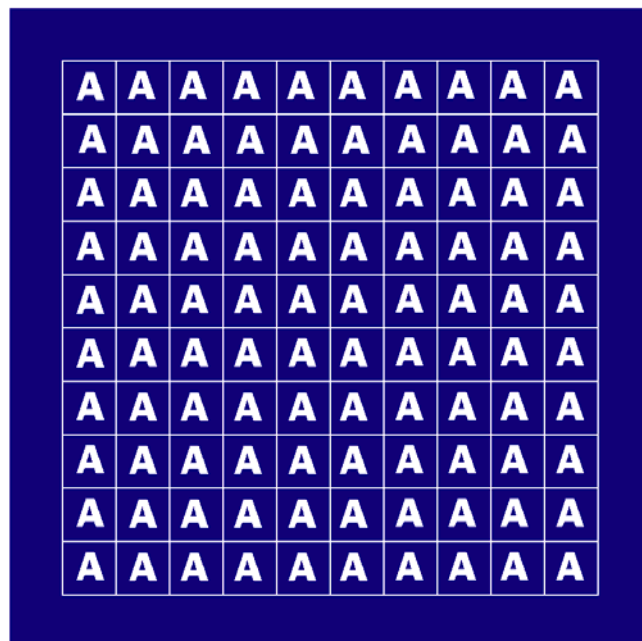

Selection of information plates with and without clear data windows
 Custom plates are available in addition to our stocked range
